

Our keepsakes, with the collaboration of Alma Blue Keepsakes, are lovingly designed and crafted of precious metal, and are a perfect way to share remains with family and friends.

Each piece has a secret pocket that can hold a pinch of cremated remains.

Gorgeous necklace that was exactly as expected! Perfectly fit some of our late pup's fur inside the necklace ♥.

Wow this gift for my friend was an above expectations. She recently lost her dog and has been beyond devastated. This gift really touched her. The design was sooooo beautiful. It came packaged beautifully with all the tools to insert the ashes. I didn't realize it would be so complete. It arrived fast and the service was on point. I'm so glad I found this to offer my friend in this moment of grief. Thank you for this thoughtful and priceless concept. It's so comforting.
